On December 9, 2001, Info Vedic Services launched in Chennai its first CD, "Ojas--Vedic Hymns for the Expectant Mother," with selections from the *Yajur Veda* addressed to Indra, Agni, Soma, Tvashta, Raka Devi and other sources of powerful energy.

Tatwamasi Dixit, Managing Director, Info Vedic Services, says that the universe is a huge energy system. Each deity controls a distinct energy, such as health, wealth, intelligence, knowledge, success, fame, charisma and longevity.

Chanting *mantras* to invoke a deity establishes an instant connection between the human heart and the energy source. Pregnant women should listen to this chanting with devotion right through pregnancy, he adds. These powerful *mantras* create noble thoughts in the mother and get transmitted to the child.

Sounds heard by the child in the womb provide foundation for later learning and behaviour. With foetal sound stimulation, the brain functions at a higher level. The foetus hears and

responds to sound impulses from the 16th week of conception. Listening to *Vedic mantras* with *svaras* nourishes and stimulates the body, the emotion, the intellect and the spirit of the mother and the child.

The *mantras* generate positive energy, drive away negative energies of jealousy, enmity and illwill, enable delivery of the child at the right time and bring health, happiness, intelligence, knowledge and wealth to the child and the entire family.

Info Vedic Services Pvt. Ltd. (IVSL) specialises in harnessing the intrinsic power behind the *Vedic* way of living. Its objective is to create a unique service organisation in areas such as *Vedic* health management, and online sales of spiritual and health goods. These can be ordered by accessing www.mypandit.com

Tatwamasi's expertise is healing. He has intensively worked in the field of energy science. He has integrated modern scientific methods with *Vedic* science in healing therapy. ☐
